

**Delaware Board of Chiropractic  
Pre-Approved Continuing Education Courses  
July 2016 – June 2018 Renewal Period**

**Introduction**

The Delaware Board of Chiropractic automatically approves any continuing education (CE) course related to the practice of chiropractic, *other than courses on practice management or state laws other than Delaware law*, when the course is sponsored or presented by a chiropractic college accredited by the [Council on Chiropractic Education](#) (CCE) or by any other national or state chiropractic organization. ***If the course is sponsored or presented by a CCE-accredited college or another national or state chiropractic organization, it is not necessary to request the Board's pre-approval of the course. The Board must pre-approve all other CE courses.***

Note that **no credit** is given for a course, or part of a course, that deals with practice management or state laws other than Delaware law, regardless of what organization sponsors or presents it.

This following CE courses that the Board has pre-approved are listed alphabetically by the name of the CE provider. These courses may be offered at any time during the two-year approval period. **Contact the providers for detailed information such as dates offered and prices.**

Either a licensee or the provider may submit a course for pre-approval. Use the [Request for Pre-Approval of Continuing Education](#) form following the instructions on the form.

**Information for Licensees**

The amount of CE credit that you are required to complete in order to renew your Delaware Chiropractic license, if any, depends on how long you have held your license. **For full details on continuing education requirements, see Section 2.0 of the Board's [Rules and Regulations](#).**

**Information for Providers**

Courses are approved for two years. **You can offer the course anytime during the two-year approval period. You DO NOT have to request approval when offering the course any additional dates or locations.**

After a course has been approved, you have to submit a new application and supporting documents only when you:

- change the course content, title, or the amount of hours offered
- wish to continue offering the course **after** the two-year approval period
